Letter of Appreciation

Dear Faisal and team,

First of all, Sustenir Agriculture would like to commend for the excellent services provided by Topgrid Pest Specialist. Sustenir Agriculture is one of the pioneers and leader for Closed Environment Agriculture (CEA) in Singapore and this industry is new to Singapore context. Despite that, Topgrid had been able to provide the required continuous support.

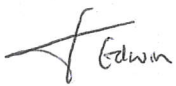

It had been 3 years since partnering with Topgrid Pest Specialist team. As an ISO22000:2018 certified company, Sustenir have confidence in our farm's Pest Management Program due to the professionalism of your team towards consultancy, documentation and on-site services. Sustenir appreciates that your team has been putting us priority on our enquiries and fast reponse towards problem solving.

Our business has been expanding with increasing farming sites, and by end of 2020, we will have 3 farming sites. This is critical to ensure that every pre-requisite control measure is as stringent as before.

Aside from that, Sustenir is grateful and feeling more secured with the recent Covid prevention actions by Topgrid in both our farms and the laboratory.

With this letter, we look forward to our long lasting partnership with Topgrid!

Thanks and regards,

 24/6/2020

Chong Hong Meng, Edwin
Regional Facility Manager
